# SAMI-AEC Eyan

Enhancing Saudi Arabia's National Security with Self-Hosted Secure Communication Platform

Aligned with the ambitious Vision 2030, Saudi Arabia is strengthening its cyber security and asserting its data sovereignty. In line with these national endeavors, SAMI-AEC Eyan is at the forefront, empowering Saudi government entities to assert control over their data. SAMI-AEC offers a private, secure communication platform, self-hosted on trusted national infrastructure. This transformative approach ensures unparalleled levels of security and operational integrity, safeguarding Saudi Arabia's vital interests and reinforcing the Kingdom's digital sovereignty.

Safeguarding Organizations Against Hostile Entities

Shields
100%
of Sensitive Data

Prevents
99%
of Unauthorized Access

Minimizes
75%
of Data Breaches
