

Rapid Response Reliable Protection

SAMI-AEC MDR's Proactive, Expert Cybersecurity

SAMI-AEC Managed Detection and Response (MDR) helps organizations manage cyber risks through continuous V/٢٤ environment monitoring. By combining advanced analytics, threat intelligence, and human expertise, SAMI-AEC MDR efficiently enhances incident prioritization, investigation, and response coordination. This, in turn, ensures the complete protection of organizations' valuable data from known and emerging threats.

1 in 2

Organizations adopted MDR as a key component of their security services in early 2023

Key Benefits of MDR Integration

Enhanced Expertise
Bring specialized skills & knowledge to complement in-house team

Easy Scalability
Meets evolving security organization needs, providing additional resources and support

24/7 Coverage
Provides round-the-clock monitoring and response, ensuring continuous protection

Advanced Threat Detection
Deploy threat intelligence to detect sophisticated threats

Delivering Value: Why Invest in SAMI-AEC MDR Services?

Deep understanding of local market needs

Tailored solutions aligned with business requirements

Pool of qualified Saudi cybersecurity experts

Agility across multi-technologies

Strong vendor support
